#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Double Patenting*

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-23 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-18 of U.S. Patent No. 6,634,233. Although the conflicting claims are not identical, they are not patentably distinct from each other because the difference between these claims is clearly obvious in that Applicant has modified the claims by using a variation of words in the limitations which are substantially the same or inherently taught in the claims of the patent '233. For example, in claim 1 Applicant substitutes the limitation "measuring time of flight data for each of said received signals" with --recording time and amplitude data for each said received signals -- wherein both limitations are substantially the same

Art Unit: 2856

except the presence of amplitude which would be obvious to one of ordinary skill in the art using the reference patent '233 inasmuch the required parameters are already determined. Moreover, applicant has inserted the limitation of "placing at least one ultrasonic transducer in acoustic communication with said couplant medium" wherein this feature is inherently taught in the patent although not recited. Therefore, the claims are clearly obvious over the patent '233 and are not patentable distinct because the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

Claims 9, 13, 16, 18 and 23, respectively, correspond substantially to claims 9, 12, 14, 16 and 18 of the Patent '233 and are rejected for similar reasons discussed above in the example of claim 1.

Claims 2-8, 10-12, 14-15, 17 and 19-22 correspond exactly or substantially to claims 2-8, 10-11, 13, 15 and 17 of the Patent '233.
